

financial stringency or the wheat even than he is in the nature of the country and the building up of the cities. The first he very frankly is not, outside the mountains, to be compared to the old world.

Almost every summer, to thirty years he has spent through beauty spots of Scotland, England and France that are favorite with his wife and himself.

"I do," he said, "to get a taste of real beauty and refresh myself in it." He was lately in the land of the future, of the growing cities of the west, from the point of view of labor. "They have so much to benefit by in the experience of all the older cities that I hope they will not overlook the need of broadening the cities in as far as they can now, and planning for future improvement."

"Would you like the west as a place of residence?"

"No, I am well content to see my son here. But I could not live so far away from the Atlantic. I want to run across every year and get refreshed after a season of work. There is no country like Europe."

## CHINESE COME IN AS STUDENTS

Young Men Entered as Students Escaped Head Tax and Gain Foothold in the Country.

Victoria, Sept. 6.—When the parliament of Canada in 1903 amended the Chinese immigration act by raising the poll tax from \$100 to \$200, the Canadians believed that it practically put a stop to Oriental immigration of this class. Like all the rest of the world, however, the act in question had to be qualified to cover certain exceptions to the operation of the rule, and investigations led to the school board of Victoria, to many to indicate that there were hordes in the state which, if they have not already been taken advantage of, are open to abuse. Whatever his district may be, John Chinaman is now dependent in craft, and his ability to outplay laborers in the country, many have never heard of H. H. H. and his "Heathen Chins."

Under the act the collection of the tax is waived in the case of merchants, their wives and children, tourists, men of science and students, and their relatives, etc. This has led to little abuse, because the collector of Vancouver and Victoria have very rigorously applied the provisions, excluding from his list those who are admitted in commercial companies who had other means of livelihood, and restricting the benefits of the act to those registered under the partnership act of the province as merchants. The same vigilance is exercised with respect to the other classes indicated.

One Lophate Available.

The customs officials, however, have noticed that this year about thirty-five Chinese have been landed at Victoria under sub-section 3 of the act. This paragraph reads as follows:

Persons of Chinese origin entering on their arrival to be admitted to the country who are unable to produce the necessary certificate as hereinafter provided, shall be entitled to a refund of the tax exacted from them on the production within eighteen months of their arrival in Canada of certificates from bankers in any school or college in Canada, showing that they are and have been for at least one year bona fide students at such school or college."

Coincident with the arrival of these boys, the school board of the city of Victoria was requested to provide teachers and classrooms for the beginning of upward of thirty children, presumably of the class which had entered Canada in the last year.

Conferees followed with the attorney-general of the province, who has advised non-compliance with the request pending a conference with the department of trade and commerce at Ottawa.

It is held that under the clause in question, the class against which the exclusion clause are levied, may bring before the court, and a merchant, found to guarantee the deposit of \$500 with the collector of customs, and then to school for a year, long enough to qualify for the return of the tax money, and to acquire a working knowledge of English, and then turn them loose as laborers at other cheap labor among the whites where, under the present conditions, they would earn probably \$12 per month.

In the opinion of the collector of customs, this sort of thing has been little advantage taken of the provision in question so far, but its elasticity is evident, and the Customs authorities may deem it necessary to restrict the class, enforce a longer term of attendance at school, raise the age limit, or in some way alter the working conditions, that this very clause was originally regarded as a most salutary one, both from a moral and economic standpoint. It is held since the beginning of this regulation in Canada, and was intended to encourage Chinese residents in Canada to send for their families and thus live under Chinese conditions, at the same time spending its money in the country in which it was entered, instead of sending it back to China.

## ROSS HAS RETURNED

An Edmonton Old Timer Who Has Been in Old Country Visiting Scenes of Childhood.

After an absence of half a century from the old land, and a visit to the picturesque Cumberland, England, Donald Ross, one of Edmonton's oldest old timers and most extensive land owners, and his wife have just returned after a visit of four months to the old country.

Last night they returned to Edmonton, and to get back to their adopted home in the Alberta capital. The trip was made in one of the new Alton line turbines, the Virginia, and he had with him a number of his friends.

The Bulletin this morning Mr. Ross, though early on the street, engaged in his business affairs, and few minutes to tell of some of the places of interest—had he visited during his absence.

"We had a most enjoyable trip," he said, "but I am very glad to get back again to Edmonton and among my friends here."

And the reason was, to some extent, apparent when one saw the warmth of the greetings he received from the friends of the city as he walked up the street.

Mr. and Mrs. Ross were accompanied on their trip by their son, Donald Ross, Junior, who is attending law at McGill University. The trip was made in one of the new Alton line turbines, the Virginia, and he had with him a number of his friends.

## EDMONTON WINS LACROSSE MATCH

Defeating the Strathcona Team at Agricultural Grounds by Score of 4 to 1.

The Strathcona lacrosse team was an easy mark for the Edmonton players at the Agricultural fair grounds, Strathcona, last night, the latter winning handsomely with a score of 4 to 1.

The team that in the early part of the season gave every indication of carrying off the championship of Alberta presented a sorry spectacle last night. In the first period, Strathcona was led by a goal, and the Edmonton players, who were now at the Agricultural fair grounds, Strathcona, last night, the latter winning handsomely with a score of 4 to 1.

## ROSS BROS., LTD.

We are showing some very good designs in Mantels, Quartered Oak, Mahogany and Weathered Oak. Grates to match in Old Copper, Antique Brass and Berlin Black.

The old-fashioned hall was packed last night to see the boxing exhibition. Even under the management of W. A. Adams, the Manitoba champion who has been promoted to principal upon the resignation of D. A. McKerricher a few days ago, Mr. Robertson was only appointed to the principality of Queen's Avenue school at the beginning of the present term, having come to this city from the east.

# The Bulletin Want Column

## HARVEST TRAINS BRING THOUSANDS

Increasing Demand For Farm Laborers Causes Additional Exports  
Western Towns Send Representatives to Winnipeg.

Winnipeg, Sept. 6.—Two trains, each with a thousand harvestmen, are expected to arrive in the city tonight and a special train at once leaves for the coast, conveying those who want to go to points along the main line to the Canadian Pacific. The demand for men in the province is said to have become almost insatiable and are required at Verdun and only 400 have been sent to that point.

Keen Demand for Labor.  
Other districts are in similar straits. A number of western towns have special representatives in the city looking after their interests, but none of them have been able to secure a satisfactory supply. In order to meet the large demand in the country the Canadian Pacific has decided to operate additional excursion trains from the east, which will leave Toronto on Sept. 17.

Largest Excursion Yet.  
For this train tickets will be sold at a low rate at all points along the eastern provinces and it is believed that it will be the largest of the year. The action of the Canadian Pacific in putting on an extra excursion has been stimulated by reports from the harvest fields, which indicate that there will be much more grain to handle than was anticipated.

WINNIPEG GRAIN MARKET.  
Winnipeg, Sept. 6.—The grain market today has been a busy one. Prices locally fluctuating with the price of about a cent higher than the previous close. This action caused considerable speculation in the cables at the opening of that market was 14 to 15 cents higher, but by the time it was opened on Sept. 6 it had advanced and not only gained the early loss but came 14 to 15 cents higher than the previous close. This action caused considerable speculation in the cables at the opening of that market was 14 to 15 cents higher, but by the time it was opened on Sept. 6 it had advanced and not only gained the early loss but came 14 to 15 cents higher than the previous close. This action caused considerable speculation in the cables at the opening of that market was 14 to 15 cents higher, but by the time it was opened on Sept. 6 it had advanced and not only gained the early loss but came 14 to 15 cents higher than the previous close.

At this figure the market around north-western wheat with a fair amount of change in the market. The sentiment is quite bullish and there is a strong undertone in the market. News generally is favorable. Warm weather has prevailed throughout Manitoba and the north, with the exception of some very light showers in Southern Manitoba. The weather is generally favorable. Warm weather has prevailed throughout Manitoba and the north, with the exception of some very light showers in Southern Manitoba. The weather is generally favorable.

Russian news in the early part of the week was unfavorable but reports now say the weather has improved and the prospects are somewhat better. Worst in the north, but there is no very great demand for it. The weather in the interior has been light but from good quality. The weather is favorable and the outlook is good. The unsettled state of conditions in Europe caused some advance in some markets during the week, as much as ten cents per bushel, or twice as much as the advance on this side. This has caused European to come to America for the requirements, with the result that a big export business has been created. Local demand for our wheat is improving and a few more loads were worked yesterday via Montreal. Stocks at the head of the lakes which very large will decrease from now until the close of navigation, as exporters are anxious to get it out. The week by crop summary again shows that being offered by winter wheat farmers who are busy getting their land for fall planting or are holding for higher prices.

All markets closed strong with all the advance held, prices generally steady, with a few exceptions. Cash wheat in all grades was in demand, and offerings very scanty.

WET WEATHER INTERFERES.  
Winnipeg, Sept. 6.—Reports from along the C. N. R. lines show that wet weather has interfered somewhat with wheat cutting, but in the great majority of the country cutting will be general by the middle of next week. In some places it is becoming general, and the crop is much above what was expected a few weeks back. Frost has done but little damage to the grain that has been cut in good shape. Barley, rye and oats have been cut for the past few days, and the majority of these grains are now in stock, while a few days of good weather will give farmers a chance to get into the wheat with a vim.

Mr. VanCamp, of Clover Bar, will commence cutting his 30,000 bushels of oats on Monday. Mr. VanCamp has a particularly fine crop of oats which are now in the hands of the mill.

Newfoundland's New Bank.  
Halifax, N.S., Sept. 6.—Hon. John A. Macdonald has given out the new bank for Newfoundland, which is known as the National Bank of Newfoundland, with a capital of \$2,000,000.

## GARDEN COMPETITION.

The judge of the garden competition, Mr. John Baxter, has handed in his report in this event, according to the prizes donated by the Edmonton Exhibition Association. The prizes donated by the Edmonton Exhibition Association. The prizes donated by the Edmonton Exhibition Association.
